November 5th, 2013

To whom it may concern,

California Premier Roofscapes, Inc ("CPRI") has supplied and installed roofing materials for Pacific West Development ("PWD") on several of their projects. We have maintained a healthy and mutually beneficial business relationship for over five years. We work with several builders and developers. PWD stands out among the rest as a client that places great value on efficiency in production and providing their customers with a quality end product.

We are proud to be one of PWD's trade partners. Their stringent pre-qualification process for all subcontractors ensures top-notch trades on all jobsites. The company seems well staffed with qualified individuals from upper management, to administrative staff, to jobsite supervision. They are diligent in collecting all required contract & insurance documents per job. Furthermore, we have not had any problems to date with invoice payments. PWD payments are received on time & in the correct amount.

CPRI looks forward to future opportunities of growth with PWD. I would highly recommend conducting business with PWD.

Sincerely,

Wesley Mayer
President
